BEAUTYHOUSE

trade mark

Beauty House is a private trademark registered in the name of our company. We are distinguished by it through agencies of high quality and efficiency.

As we deal with international companies to provide our customers with a product made according to internationally approved specifications and conditions.

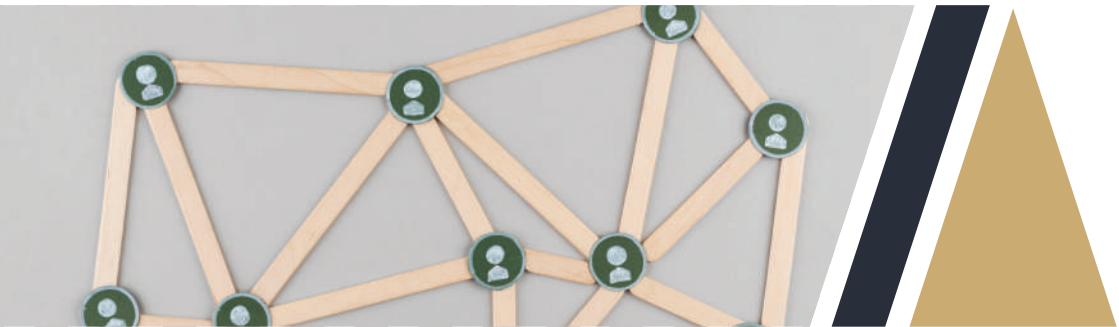

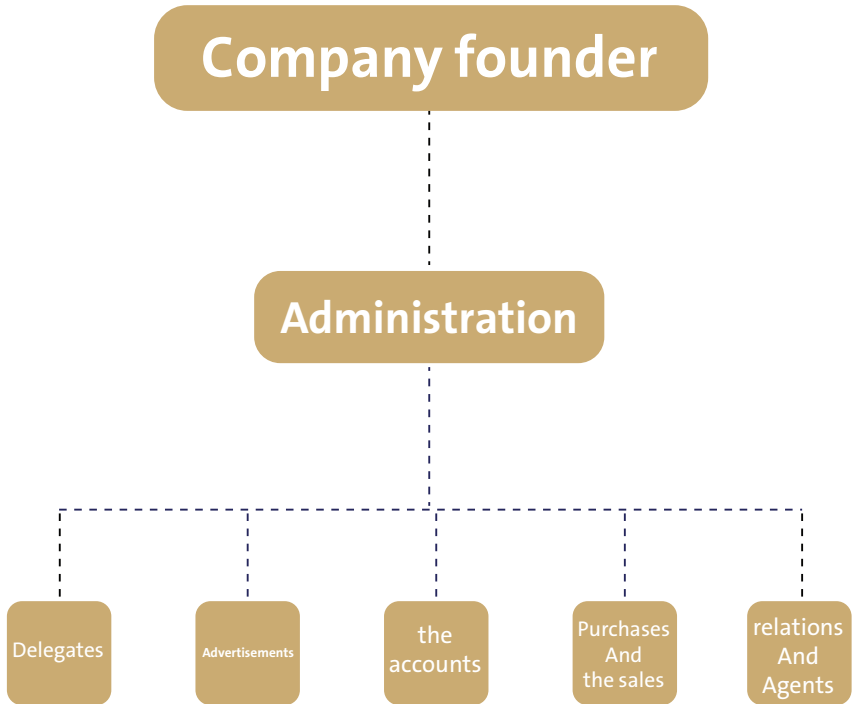

who are we

An Iraqi company that brings together many international agencies and brands specialized in the production of high-quality perfumes and cosmetics. Beauty House owns more than one branch inside Iraq, in addition to selling online to facilitate the access of products to all its customers.

Organizational Chart

The company's origins

In the beginning, we did not come up with a ready-made and complete company, as we started working in this field in 1994, where we worked in the field of perfumes and cosmetics for a long time.

In 2021, we began bringing the first French international agency to Iraq, and after that an agreement was made with several Arab agencies. We succeeded in the Kurdistan region, and after that we expanded to include branches in several Iraqi governorates.

With a simple staff and limited capabilities, we were able to work with professionalism and perseverance, through which we were able to attract a large number of clients and customers.

This simple success prompted us to expand and develop the company step by step in line with market requirements and customers' opinions and desires, so that Beauty House became the name of an effective and well-known company in the Iraqi market that competes with other companies.

Our goals

One of the most important goals of Beauty House is to provide cosmetic products and original perfumes from international origins to make them accessible to its customers, through its contracts with the largest international agencies.

Values and vision

We have adopted these qualities to be principles and basic values that we adhere to in our dealings with everyone, and this is what we sensed from our customers, as they expressed their admiration and appreciation for the accuracy, honesty and professionalism of our work.

We have a vision to expand our company to have several branches, covering all governorates of Iraq, and to diversify the products and services that we provide to our customers, in an effort to provide working conditions that reduce time, effort, and cost for the customer.

Exclusive agencies
